Commercial Security Solutions commenced operation in July 2003.

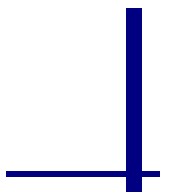

We aim to be the recognised leader in providing quality accredited Security Services and attention to satisfy individual client needs.

Commercial Security Solutions intends on being a leading access control and electronic security company.

Commercial Security Solutions is preparing to lead the way in planning and implementing Access Control solutions that not only work, but make life a whole lot easier.

The experienced team intends fulfilling Security and electronic requirements throughout South Australia.

Our previous experience includes many major commercial properties, local and state government departments, mining companies, hospitals, airports, correctional facilities and hotels.

Company History

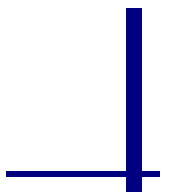

Commercial Security Solutions is a successful Security Integrator business operating since June 2003.

Whilst only a new business, all staff were previously employed by Commercial Access Systems (a Tyco company) and the experience and abilities of the staff in the Security Industry are extensive, with a brief resume outlined below.

We are also in a position to draw on the resources, (as would any large company) of specialised and trained contractors as and when required, if the need arises.

The rapid transition of clients to Commercial Security Solutions highlights their confidence in our staff and the commitment of our team to providing clients with a customer focused service that they expect and demand in the Commercial Security industry.

Our clients' confidence is such that in our first 12 months, we managed to secure over 30 Service Agreements on commercial properties, which highlights the clients trust in our abilities to service their Security needs. This confidence continues to grow, with over 60 Agreements now in place.

Company Structure

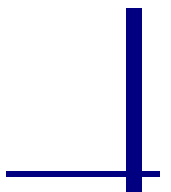

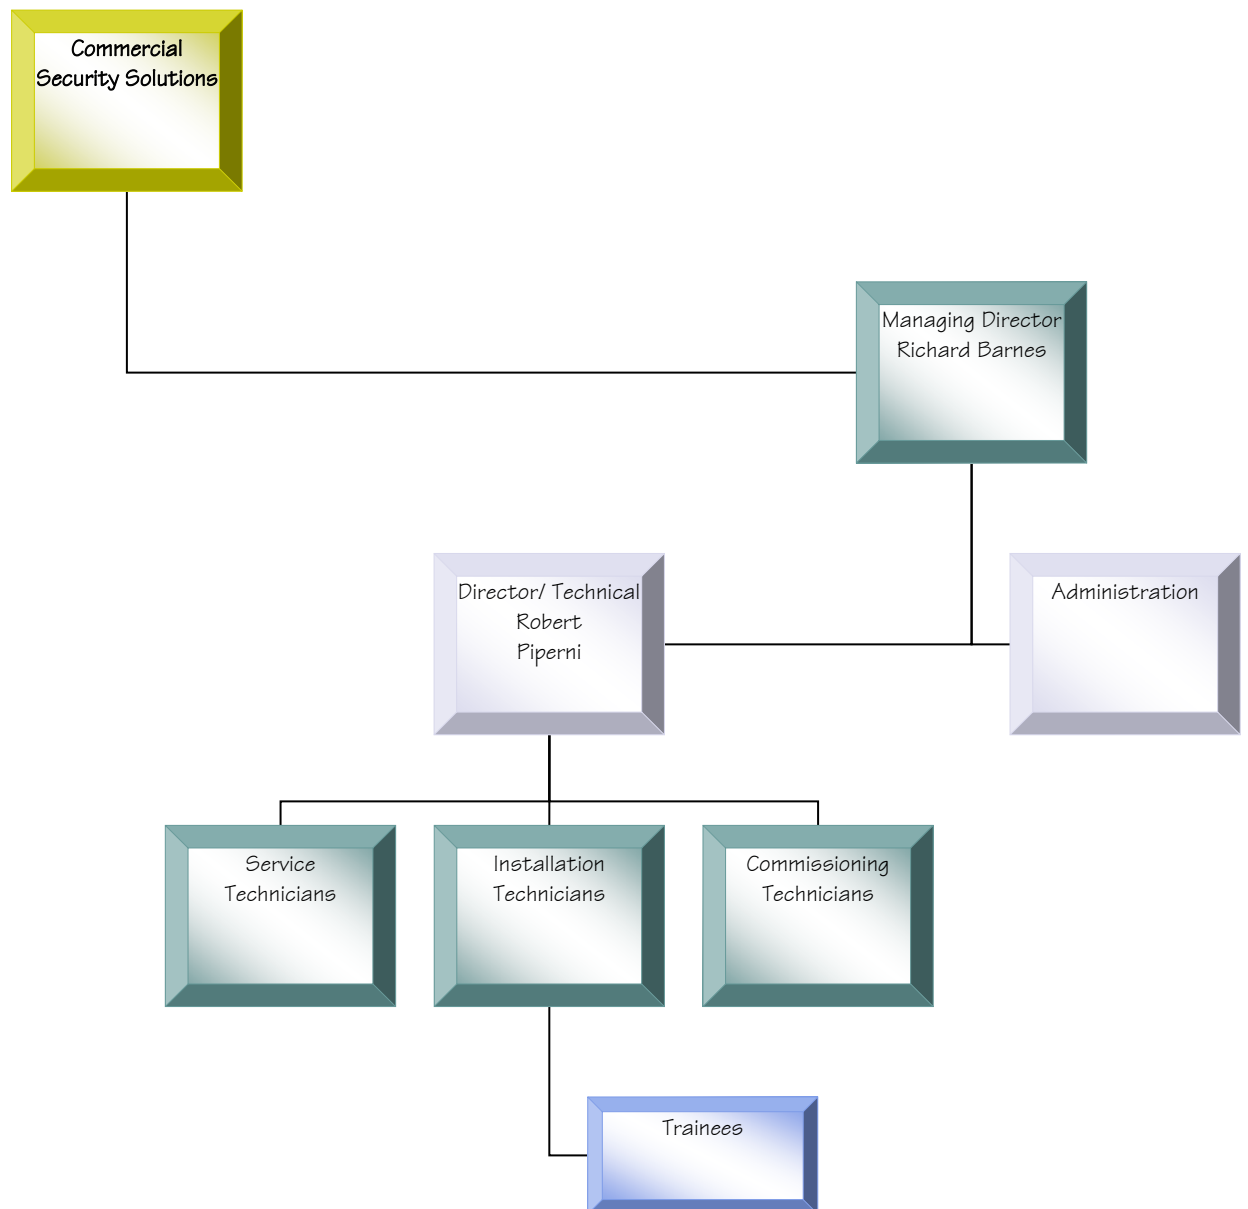

Commercial Security Solutions Pty Ltd is a registered proprietary limited company, trading as Commercial Security Solutions.

ABN: 44 621 630 511.

ACN: 105 169 097

Security Licence ISL 178361.

All employees also carry individual Security Licences and ACA Licences.

Quality Assurance

Whilst we the company does not have third party external accreditation, the Company is committed to the pursuance of quality excellence in all aspects of its operation and demonstrates best practice procedures and effective project management.

We regularly monitor and evaluate our systems and processes and aim to continually improve these through staff and client feedback.

Human Resources

Our employees make our Company successful.

Policies, procedures and training schemes will ensure our employees are skilled and knowledgeable with the latest developments in the security industry.

OH&S

Commercial Security Solutions is committed to the safety of it's staff, customers and public.

As part of this commitment our OH&S Policy is externally audited for compliance.

Insurances

The company holds Public Liability insurance of \$20,000,000.

Insurer Liberty International Underwriters Policy SLCASME01107462
