To Whom It May Concern

**Letter of Commendation – Commercial Security Solutions
Security Services provided at Government House, North Terrace Adelaide**

This is to advise that Commercial Security Solutions was the electronic security trade contractor for the Perimeter Detection and CCTV System Upgrade at Government House, Adelaide.

As the consulting engineer for the project, I would like to commend Commercial Security Solutions for their performance on the project, in particular the efforts of Richard Barnes and Rob Piperni in being able to address the complexity associated with installing and commissioning a sophisticated Perimeter Detection and CCTV System. Commercial Security Solutions provided a very responsive, collaborative and high quality service for the construction phase of the project which had inherent heritage, political and operational constraints.

Should you wish to discuss any parts of their work in further detail please do not hesitate to contact the undersigned.

Yours sincerely
