To Whom it May Concern

Thursday, January 20, 2005

I have known both Robert and Richard from Commercial Security Solutions in a business environment for many years. Both have extensive experience in the Security Industry.

Since the formation of Commercial Security Solutions they have successfully refitted many of the largest buildings in Adelaide with both Security and Access Control. Their biggest achievement has been the very successful installation and commissioning of the access control System for SANTOS House. SANTOS House is the largest Access Control System in South Australia; it has in total 13 lifts and 130 Doors.

Both Robert and Richard are held in the highest extreme by both Security Merchants Australia and the manufactures of the Concept Security Equipment (Inner Range).

Robert holds Inner Range Factory certification as an Advanced Technician, and is currently being used by Inner Range to assist them with research and development ideas.

Yours truly,

Lawrie Morrison
State Manager Security Merchants SA/NT
